PROFILE SUMMARY

I'm a graduate of Federal University of Technology Minna where I was certified a Bachelor of Engineering in Electrical and Electronics engineering. Inspired by innovation, I thrive on experimenting with different concepts and have been commended for inspiring and developing unique and thought-provoking ideas. I have cultivated website optimization, programming and usability testing skills through a range of practical experience. These strengths, combined with my passion for the industry have created a strong foundation to meet the needs of the organization. I strive to contribute to an energetic and team-driven work culture.

PROFESSIONAL EXPERIENCE

Frontend Developer Associate Shoppverse Nigeria Limited

2023 - Present

- Spearheaded the development and maintenance of Shoppverse, a cutting-edge Web3 ecommerce startup.
- Utilized React and Next.js to craft responsive, visually captivating, and user-friendly websites. Developed robust components to enhance the overall user experience.
- Collaborated closely with cross-functional teams, optimizing website performance, user experience, and SEO to meet the evolving demands of the ecommerce landscape.
- Optimize applications for maximum speed
- Collaborate with back-end developers and web designers to improve usability
- Write functional requirement documents and guides
- Create quality mockups and prototypes
- Help back-end developers with coding and troubleshooting
- Ensure high-quality graphic standards and brand consistency
- Engineered and implemented a Firebase-based database for product management, demonstrating proficiency in backend functionalities.
- Contributed to the continuous improvement of the platform's frontend, adapting to emerging technologies and industry best practices.

Frontend Developer Removals & Selfstorage Nigeria Limited.

2022 – 2023

- Collaborate with the design team to create a visually appealing and user-friendly website design.
- Develop website layout and functionality using HTML, CSS, and JavaScript

- Integrate Firebase into the website for real-time data storage and management.
- Build web applications with web development best practices
- Transform app designs into front-end code with HTML, CSS, and JavaScript
- Work with back-end developers to integrate UI components with APIs and databases
- Gather and refine specifications and requirements based on technical requirements or UX design
- Debug errors, troubleshoot issues, and perform routine performance optimizations
- Write high-quality, scalable, and reusable code
- Stay plugged into emerging technologies and industry trends.
- Implement booking functionality that allows customers to select a date and time for their move.
- Develop an intuitive user interface for customers to select their move details and receive a quote.
- Continuously monitor and improve website performance and user experience.
- Maintain website security and data privacy.
- Troubleshoot and debug website issues.

Junior Frontend Developer
Outsource Global Tech Nig. Ltd.

2021 – 2022

- Installed and configured both software and hardware components, ensuring optimal performance for development tasks.
- Collaborated effectively with fellow developers, participating in team projects to achieve shared goals and deadlines.
- Completed assigned tasks with precision and diligence, contributing to the overall success of the development team.
- Regularly attended stand-up meetings to discuss progress, challenges, and strategize with the team for improved workflow.
- Demonstrated proficiency in a diverse technology stack, including:
 - HTML, CSS, JavaScript for front-end development.
 - React for building responsive and interactive user interfaces.
 - WordPress for content management system (CMS) tasks.
 - Express.js and Node.js for back-end development.
 - programming language for specific development needs.
- Successfully obtained a Certificate of Completion, recognizing my commitment and accomplishments in fulfilling assigned tasks.
