---

### Objective

To obtain a challenging web developer position in a dynamic and innovative organization where I can utilize my technical and creative skills to develop and maintain responsive, user-friendly, and visually appealing websites.

---

### Skills & abilities

Proficient in a range of programming languages (HTML, CSS, JavaScript, ReactJs, Bootstrap, Tailwind, Firebase, Git, NodeJs), with experience in developing and maintaining responsive, user-friendly, and visually appealing websites using modern web development frameworks and tools.

---

### Experience

#### SHOPPLEVERSE

##### Front-end Web Developer | August, 2023 - Date

- Spearheaded the development and maintenance of Shoppleverse, a cutting-edge Web3 ecommerce startup.
- Utilized React and Next.js to craft responsive, visually captivating, and user-friendly websites. Developed robust components to enhance the overall user experience.
- Collaborated closely with cross-functional teams, optimizing website performance, user experience, and SEO to meet the evolving demands of the ecommerce landscape.
- Engineered and implemented a Firebase-based database for product management, demonstrating proficiency in backend functionalities.
- Contributed to the continuous improvement of the platform's frontend, adapting to emerging technologies and industry best practices.

#### REMOVALS & SELFSTORAGE LTD.

##### Front-end Web Developer | February, 2023 – July, 2023

- Collaborate with the design team to create a visually appealing and user-friendly website design
  - Develop website layout and functionality using HTML, CSS, and JavaScript
  - Integrate Firebase into the website for real-time data storage and management
  - Implement booking functionality that allows customers to select a date and time for their move.
  - Develop an intuitive user interface for customers to select their move details and receive a quote.
  - Continuously monitor and improve website performance and user experience.
  - Maintain website security and data privacy.
  - Troubleshoot and debug website issues.
